Full-stack engineer with startup founding experience, hands-on across architecture, backend implementation, and AI system design.

EXPERIENCE

Co-Founder & Full-Stack Engineer — BeyondBrain

Taipei, Taiwan | Feb 2024 – Jun 2026

- Co-founded BeyondBrain and led the development of **Lumi, an AI travel planning platform**, transforming **product concepts into production-ready features**, scaling to **250K+ daily requests**, supporting hotel inventory for **1M+ properties**, and helping secure **seed funding**.
- Designed **Lumi's AI planning experience** by integrating an **LLM-powered planning engine** with **deterministic validation workflows**, delivering flexible travel recommendations, seamless booking experience, and accurate pricing.
- Designed the architecture for **FifthKeys, a hospitality management platform**, enabling consistent management of **inventory, reservations, and pricing** across channels with **event-driven architecture**, and increasing client hotel occupancy by **20%+**.
- Grew and mentored a **cross-functional engineering team**, established engineering practices, and hired **6 engineers**.

Full-Stack Engineer — MixerBox

Taipei, Taiwan | Jun 2021 – Feb 2024

- Owned the backend architecture and AI interaction workflows for **MixerBox ChatAI**, improving **response reliability** and tool orchestration for production AI services handling **2.4M+ daily requests** and **9,000 peak RPM**.
- Built **high-concurrency purchasing workflows** for **MixerBox Pay**, a payment and digital commerce platform, ensuring **fair and reliable limited-quantity releases** by implementing transactional safeguards that prevented overselling and race conditions during high-demand releases.
- Built authentication and identity management services that power **MixerBox ID**, a centralized platform with **1M+ users**, simplifying **account management** across multiple products.
- Maintained **production reliability** for large-scale consumer applications by monitoring with AWS CloudWatch, responding to incidents, and providing **on-call support**, minimizing **service disruptions**.
- Joined as the company's **first full-stack engineer**, helping establish **engineering standards**, interview processes, and scalable development practices as the engineering organization grew.

IT Intern — Funpodium

Taipei, Taiwan | Jul 2020 – Feb 2021

- Built internal tooling and customer-facing web applications, including an **IAM-inspired administration platform**, a custom CMS, and React applications.

IT Intern — Gridwell

Taipei, Taiwan | Jul 2019 – Jun 2020

- Developed **operational dashboards** and reporting tools for **Taipower's** internal operations team, improving visibility through **reliable data pipelines** and analytics.

LEADERSHIP & ACTIVITIES

National Taiwan University CSIE — Taipei, Taiwan

- Teaching Assistant, **Algorithms**, designing and grading coursework and holding office hours.
- General Coordinator, **CSIE Camp**, leading planning and execution of a department-wide event.

SKILLS

Programming:	TypeScript, JavaScript, Python, SQL, C++
Frontend & Backend:	React.js, Next.js, Node.js, NestJS, FastAPI
Database:	PostgreSQL, DynamoDB, MongoDB
Cloud & DevOps:	AWS (ECS, EKS, RDS, DynamoDB, CloudFront, Route53, CloudWatch), Docker, GitHub Actions, Jenkins
AI & Product:	LLM-powered applications, AI workflow design, AI agents, AI-assisted dev (Cursor)
Spoken:	English (Professional), Mandarin (Native)

EDUCATION

National Taiwan University — Taipei, Taiwan

B.S. in Computer Science and Information Engineering | Sep 2017 – May 2021
